

Early Years

Aims

Here in the Early Years at Eagle Primary School, we are a nurturing and dedicated family, and very much part of TEAM EAGLE. We are very privileged to meet our pupils as early as two years old and are able to share their wonderful seamless journey throughout their early years and beyond.

Intent

At Eagle, we are passionate about providing the children with high quality, versatile and challenging experiences to enable them to grow and thrive. We understand that an articulate inquisitive child holds the key to the life-long love of learning. We want our children to develop an awareness of their own self and the importance of expressing themselves clearly with empathy and kindness. We will help our children to understand and regulate their own emotions and understand the feelings of others, so they can develop their ability to communicate their wants and needs clearly and build secure social and emotional relationships.

We provide an engaging, stimulating and challenging environment that celebrates diversity and ensures that our children are immersed in their own learning journeys. Through our beautiful setting and high-quality provision, we will enable children to nurture their own interests. We want our children to be confident communicators by providing a language rich environment, impactful interactions and purposeful learning opportunities, equipping the children with the skills and knowledge they need for their next milestones.

In their exploration, we will encourage the children to be resilient and adventurous learners, to be curious about the world and make connections. Above all, our children's well-being is paramount. We strive to ensure that every child in Early Years feels safe, happy, and supported as they begin their journey of growth and learning.
